

Addendum to the Final Report.

Rotarians from the Kenai Rotary Club met with representatives from the Kenai Peninsula Borough Students in Transition program. A needs assessment was done to establish the items needed such as, blankets, clothing, toiletries, school supplies, etc., Although due to privacy and confidentiality restrictions we were unable to actually meet any of the students in need the program representatives notified us that there were approximately 80 students in the program.

The program director also made a presentation of need to our club at one of our regular meetings with at least six Rotarians present

Funds were raised by soliciting donations from members, a wine basket raffle, and an online donation portal set up by one of our member Rotarians.
