Hi Sharon,

Thank you for visiting our program and for the support from the club.

Attached you will find the donation receipt and below is the requested paragraph outlining what the grant is providing.

The \$2,000 grant will support a sibling riding pair to participate in weekly services for three months. One sister is receiving physical therapy using Hippotherapy (the movement of the horse) to improve strength and balance to contribute to overall safety and the other is a neurotypical girl participating in our sibling riding program. Our sibling program was created to support the entire family. Sharing this experience allows the girls to motivate one another, strengthen their bond, and enjoy an activity together.

Best,

Dr. Jillian
