- ✓ One of the largest CHD repositories in the country
- ✓ Systematic Research with a multi OMICS approach

Ongoing Research

- Genomic Research
- Epigenetic Research
- Clinical Research
- Epidemiological Research

Sr No.	Limitations of studies so far globally	Opportunities at Sanjeevani in India
1	Single centre study	Can initiate PAN-INDIA
2	Unavailability of raw images	Huge raw datasets available per centre
3	Limited availability of CHD cases	High load of CHD cases/ centre >100 new patients/day across all centres in OPD
4	Single/limited span of disease subtypes	Diverse spectrum of CHD cases
5	Either of tertiary/primary healthcare datasets	Comprehensive huge datasets from primary, secondary and tertiary healthcare
6	Discrete datasets- case history, genetic information, treatment information	Complete information per patient

Biobank for CHD data as on End June 24

Centre	Initiated since	Blood	Serum	Biopsies	Total
